Dear Mr.Gersenson:

I extend my heartfelt thanks to you for the superb SEO work done on the www.bohemiapiano.cz website. Your optimization service revitalized our company by giving it the web presence necessary to compete with the world's top piano makers.

In the first 90 days of your services search engine traffic to our site is up 1200% over the previous six month average. We have received an unprecedented number of request about our instruments since we contracted your services. While I expected results for such competitive terms as upright piano, and mahogany grand piano.... I frankly never imagined such astounding results- we appreciate and applaud your performance.

I feel that the fee collected for your services is not enough for what you have done for us and offer, again, my most sincere thanks and appreciation.

Sincerely,

Stanislav Křemenák
President
Bohemia Piano s.r.o.
